CHECK-IN: 9:00AM

WALK BEGINS: 9:30AM

HDSA.ORG/THWSACRAMENTO

Dear Friends of HDSA,

The Huntington's Disease Society of America (HDSA) is excited to announce the 2024 Team Hope Walk Sacramento to be held on September 21st at River Walk Park. Team Hope events represent the largest local opportunity for members of the HD community to come together with friends, family members, neighbors and the community at large to raise necessary awareness and funds to support HDSA.

Huntington's disease (HD) is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities during their prime working years and has no cure.

A local Team Hope sponsorship at any level is an excellent opportunity for you to support a great cause and to take advantage of a wonderful marketing opportunity. Since their inception, Team Hope Walks have raised more than \$14 million and involved tens of thousands of participants from local communities across America. As a local sponsor, you will be increasing your brand recognition, visibility and demonstrating your commitment to the local community your employees and customers live and work in.

Proceeds from Team Hope support the mission and programs of HDSA, the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's disease. From community services and education to advocacy and research, HDSA is the world's leader in providing *help for today, hope for tomorrow* for people with Huntington's disease and their families. In the battle against Huntington's disease no one fights alone. ***At HDSA, family is everything.***

This cause is extremely important to so many members of our community. Your sponsorship of the Team Hope program will be greatly appreciated and will make a huge difference to the thousands of families who are living with HD.

Enclosed you will find a packet that outlines the sponsorship opportunities in detail. Thank you, for your consideration, and we hope to see you at the 2024 Team Hope walk Sacramento on September 21st.

HD & HDSA

Huntington's Disease (HD) is a genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years, and is ultimately fatal.

HD manifests as a triad of motor, cognitive and psychiatric symptoms, which progressively get worse over time. The symptoms of HD are often described as having ALS, Parkinson's, and Alzheimer's disease - simultaneously.

Every child of a parent with HD has a 50/50 chance of inheriting the faulty gene that cause the disease. Today, there are approximately 41,000 symptomatic Americans and 200,000 people in the United States at-risk of inheriting HD. In less than 10% of cases, juvenile Huntington's disease (JHD) affects children & adolescents.

THERE IS NO CURE....YET.
